Re: *RM-11104*
NOTICE OF EX PARTE COMMUNICATION

Dear Ms. Dortch:

Pursuant to Section 1.1206(a)(1) of the Commission's Rules, we are writing to report that this afternoon undersigned counsel for The Wireless Communications Association International, Inc. ("WCA") spoke via telephone with John Reed of the Commission's Office of Engineering and Technology regarding WCA's above-captioned Petition for Rulemaking and the subsequent letter dated March 18, 2003 from Agilent Technologies in the same proceeding. WCA's counsel advised Mr. Reed that a representative of WCA's Over 60 GHz Committee met with representatives of Agilent on May 11, 2005 to address Agilent's concerns about WCA's proposal. WCA's counsel further advised that the parties agreed to continue their dialogue as necessary to address any issues Agilent or its customers may have about WCA's proposal. WCA's counsel requested that the Commission move forward with a *Notice of Proposed Rulemaking* ("NPRM") on WCA's proposal, since (1) Agilent remains the only party to have formally expressed any concerns about WCA's proposal, and (2) issuance of an *NPRM* on WCA's proposal at this time would not otherwise be prejudicial, since WCA is committed to developing whatever consensus is achievable among interested parties during the comment and reply comment periods for the *NPRM*.
